Mixing Pancakes

Maren found the following recipe in her mother's favorite cookbook.

Home-Style Pancakes

3 cups baking mix
 $\frac{3}{4}$ cup milk
 2 eggs

Mix all ingredients together with a hand mixer until well blended. Pour approximately $\frac{1}{2}$ cup of batter onto hot griddle. Turn when bubbly. Cook until done.

Recipe makes 6 servings.

How much of each ingredient is needed to make 15 servings of pancakes?

Communicating About Mathematics

How did you determine the amount of milk needed to make 15 servings?
