

Name: _____ Period: _____ Date: _____

Evaluate: Interpreting Data and Graphs

- 1 The histogram shown below represents the number of books read by several students last summer.

How many students were surveyed?

Record your answer and fill in the bubbles. Be sure to use the correct place value.

0	0	0	0	0	0	0	0
1	1	1	1	1	1	1	1
2	2	2	2	2	2	2	2
3	3	3	3	3	3	3	3
4	4	4	4	4	4	4	4
5	5	5	5	5	5	5	5
6	6	6	6	6	6	6	6
7	7	7	7	7	7	7	7
8	8	8	8	8	8	8	8
9	9	9	9	9	9	9	9

- 2 The table below shows the hourly temperature for 1 morning in Houston.

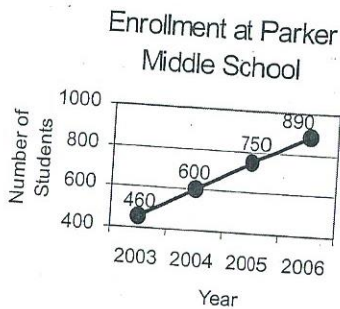

Morning Temperature

Time	Temperature
6 A.M.	70°F
7 A.M.	73°F
8 A.M.	73°F
9 A.M.	74°F
10 A.M.	77°F
11 A.M.	78°F

Which type of graph would best represent this data?

- A circle graph
- B histogram
- C line graph
- D Venn diagram

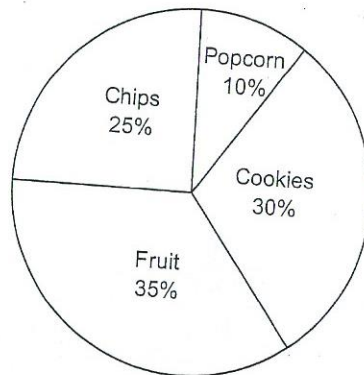

- 3 Enrollment at Parker Middle School has been increasing since it opened in 2003 as indicated in the line graph below.

Which of the following statements is true based on the data shown above?

- A The number of students doubled from 2003 to 2006.
- B The number of students in 2004 was $\frac{1}{3}$ the number of students in 2006.
- C The number of students increased by 25% from 2004 to 2005.
- D The number of students increased by 140% from 2005 to 2006.

- 4 Two-hundred students in the eighth grade were surveyed about their favorite types of snack food. The results are shown below.

Which conclusion best represents the data collected?

- A Twenty-five students chose chips as their favorite snack food.
- B Five more students chose cookies than chose chips as their favorite snack food.
- C One-third of the students chose cookies as their favorite snack food.
- D Ten more students chose fruit than chose cookies as their favorite snack food.
