

What Is Your Initial Worth?

Part 1

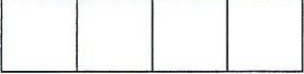

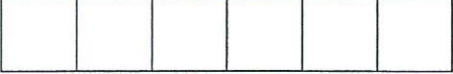

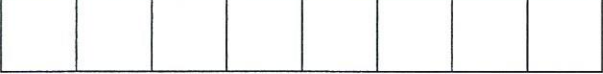

Using at least 3 different colors and at least 8 rods, arrange rods in the shape of your first initial.

Part 2

The values of the rods are proportional. If the yellow rod has a value of \$15, find the value of your initial.

Hint Card: What Is Your Initial Worth?*

The yellow rod has a value of \$15. Find the value of each of the other rods by completing the table below. Then use the completed table to determine the value of your initial.

Color	Picture	Value
White		
Red		
Light Green		
Purple		
Yellow		\$15
Dark Green		
Black		
Brown		
Blue		
Orange
